

Spetsifikatsioon

Mõõtmed:

600 x 300mm

680 x 300mm

ÕHUKLAPP

- Külgseinte sisselaskeavad on valmistatud kvaliteetsest ABS-plastmaterjalist, millele on lisatud UV-stabilisaatorit, et tagada tugev vananemisvastatus koos pika elueaga.
- Spetsiaalne sisselaskeava kuju tagab klapi suurepärase õhutiheduse.
- Terasosad on valmistatud roostevabast terasest, et kaitsta karmi keskkonna eest.

Specification

Dimensions:
600 x 300mm
680 x 300mm

AIR INLET

- The sidewall air inlets are manufactured from high-quality ABS plastic with added UV stabilizers, ensuring excellent resistance to ageing and long service life.
- The specially designed inlet shape provides excellent airtight sealing of the damper.
- All steel components are made of stainless steel to ensure protection in harsh environmental conditions.
